# Amrit Chaturvedi

## Software Developer

Highly motivated and skilled Android Developer with 3.4 years of professional experience in designing and developing innovative mobile applications. Seeking a challenging position in a dynamic organisation where I can utilise my technical expertise and creativity to contribute to the success of the company.

## Experience

Company Name | **Brainmobi Technology Pvt Limited**

### Senior Android Developer

**Nov 2023 - Till Now**

- Lead the development and maintenance of advanced Android applications.
- Collaborate with UI/UX designers, product managers, and other developers to create seamless user experiences.
- Implement new features and optimize existing functionalities to improve application performance.
- Mentor junior developers and provide guidance on best practices in coding and software development.

### Juniors Android Developer

**May 2021 - Nov 2023 (2 years, 6 months)**

- Participated in the design and release of a productivity Android app with over 10,000 active users within the first year.
- Implemented smooth sync functionality with enterprise back-end services, enhancing user productivity by allowing seamless data access.
- Played a key role in optimising the app for different screen sizes, ensuring a consistent and high-quality user experience across devices.
- Assisted in the design and development of Android applications, working closely with senior developers.
- Participated in code reviews and contributed to improving code quality and software performance.
- Debugged and resolved technical issues, ensuring the stability and reliability of applications.
- Contributed to the creation of technical documentation and user guides.

### Training

**Mar 2021 - May 2021 (3 months)**

- Completed an intensive training program in Android app development, focusing on core concepts and practical applications.
- Developed basic Android applications as part of the training curriculum.
- Learned and applied best practices in coding, testing, and debugging.

## Projects

### Cricket Line Guru

#### Live Scoring App

- Cricket Line Guru is a comprehensive mobile application designed for cricket enthusiasts. It offers real-time updates on cricket matches, including live scores, ball-by-ball commentary, and detailed statistics. Users can stay informed about upcoming fixtures, team rankings, player profiles, and match highlights. The app also features expert analysis, news updates, and personalised notifications to keep fans engaged and informed about their favourite sport.
- Developed a comprehensive live scoring app using Kotlin and Android Studio, integrating Google Firebase for live data updates and used API for other info.

# Language

- English
- Hindi

## Certification

- Jun 2019 - Aug 2019  
**C++**  
DUCAT, Noida
- Sep 2019 - Feb 2020  
**Java (Core+Advance)**  
DUCAT, Noida
- May-2024  
**SOLID State Principle**  
SCALER

- Optimised app performance, achieving a 99% crash-free rate across 50,00000 active users.
- This Application have 1Cr+ download with 4.6 rating.

### Cricdaddy
